

**Modules designed for Car Showrooms & Car Parking**

**CICOGNA** is the modular tent-covering, specially manufactured for car showrooms & car parkings. Its supporting framework is in Galvanized and white powder-coated steel & its covering is in a particular antirain and anti-hall elastomer PVC.

Its elegant and sober shape catches the eye and gives a successful visual impact.

As optional extra, you can add to CICOGNA, the self-supporting flower-pot holders and the lighting system, studied to address the light indirectly on the product, enhancing it.
